
150-foot collapsible container for mining

What are Antbox mining containers?

Antbox Mining Containers are mobile solutions that allow miners to operate without a building to host machines in. Containers can be deployed near an energy provider of your choice, potentially allowing for higher profit margins compared to stationary facilities that are dependent on their local power grid.

What are bitcoin mining containers?

Bitcoin mining containers -- also known as ASIC mining containers or modular mining units -- have become a popular choice for miners looking to deploy turnkey, plug-and-play infrastructure quickly and cost-effectively.

What is a containerized mining solution?

Whether you're operating a 300MW industrial-scale site or seeking a mobile mining container for sub-1MW deployments, these containerized mining solutions offer flexibility, scalability, and integrated cooling systems designed to support the latest generation of ASIC miners like the Antminer S21 and Whatsminer M60 series.

What is a mobile crypto mining container?

(The container is designed to protect the internal components during transportation. Minor scratches won't affect the core functionality of the unit.) Minerbase, mobile crypto mining containers, provides indoor and outdoor deployment setup. Available in air cooling, immersion liquid cooling and heat recovery.

Explore the best modular, air-cooled, and immersion-ready containers for your Bitcoin mining operations in 2025.
