
150-foot energy storage container for Norwegian highways

Will Norway develop a full-scale CCS value chain in 2025?

The project is said to reflect the Norwegian government's ambition to develop a full-scale CCS value chain in Norway, demonstrating the potential of this decarbonization approach. Longship, with captured CO₂ from Brevik and Northern Lights' transport and storage, will be operational in 2025.

How much will Norway spend on the longship project?

While disclosing that its Longship project is nearing completion, the Norwegian government highlighted that it intends to continue its investment in the project, thus, it proposed an allocation of 2.1 billion NOK or \$197.3 million for this development in the state budget for 2025.

Why is longship important in Norway?

According to the Norwegian authorities, Longship is a central part of the government's policy for CO₂ management and a part of the country's contribution to developing the necessary climate technologies.

How many tons of CO₂ will Northern Lights transport a year?

Northern Lights will also transport and store up to 800,000 tons of CO₂ annually from Yara's ammonia and fertilizer plant in Sluiskil, Netherlands - in addition to 430,000 tons of biogenic CO₂ per year from Ørsted's two power plants in Denmark, starting in 2026.

The Norwegian government has made room in its 2025 budget for a multimillion-dollar investment destined to be injected into its carbon capture and storage (CCS) project, ...

Why Bergen Needs Container Energy Storage Bergen, Norway's second-largest city, faces unique energy demands. With its heavy reliance on hydropower and growing investments in ...

Why Oslo's Energy Storage Containers Are Turning Heads in Global Transport a fleet of energy storage containers gliding through Oslo's fjords like high-tech Vikings, powering ...

Explore innovative shipping container energy storage systems for sustainable, off-grid power solutions. Harness renewable energy storage effectively.

Detailed info and reviews on 7 top Energy Storage companies and startups in Norway in 2025. Get the latest updates on their products, jobs, funding, investors, founders ...

Skanska is working on the construction of the future E18 highway outside Oslo, Norway. To complete the Strand-Ramstadsletta stretch and to cover the high energy demand ...

What is happening with Norway's Northern Lights project? Oslo, Norway ??? The Global CCS Institute has welcomed the positive investment decision by project partners Equinor, Shell, and ...
