
280ah battery energy storage

I am just about done buying for and building my system, the last component is batteries. I'm trying to decide between these two options. I have been reading BarracudaBob's ...

Hi, We are building a new RV, and looking for a 230..300Ah battery system. Need at least 150Ah discharge current. Li-Time, Eco-Worthy, and WattCycle are on the shortlist. I ...

I have a 280Ah LiFePO4 battery. The voltage vs charge level data from the manufacturer is as follows. Battery Voltage & Actual Capacity 13.6V 100% 13.4V...

One question I have is when in lead acid mode I set the Ah setting to 280Ah but when looking at the eg4 webmon (not app) it doesn't indicate the total batt, full cap or ...

The acceptable range depends on one's expectations. If one buys a 'commodity' 280ah cell and it delivers 270ah's, is that acceptable to you? It would be to me considering the ...

Hi all, Relatively new to the DIY battery route. Watched a load of Will's videos re Prismatic LiFePO4 cells and decided to go that route. Basically from my preview building as ...

The Eco-Worthy 280AH seems to be using well matched cells, since the balance delta at top of charge, just as the BMS switches off the charging during absorption, after the ...
