## Armenia dedicated solar air conditioner price

What is a acdc12c solar air conditioner?

The ACDC12C hybrid solar air conditioner allows you to add comfort without adding energy cost, and can sharply cut your daytime heating and cooling bills. Get up to 100% of your daytime cooling (or heating) free from the sun. Plug-N-Play solar connections make installation simple. Over SEER 22 on normal AC power.

Why should you choose a hybrid solar air conditioner?

Solar augmentation also allows offsetting of higher daytime electricity rates and reduces the amount of early evening catch-up required by the normal system. The ACDC12C hybrid solar air conditioner allows you to add comfort without adding energy cost, and can sharply cut your daytime heating and cooling bills.

Does acdc12c offer a 5th generation solar AC?

We are pleased to offer our 5th generation solar AC, the model ACDC12C. Like our previous solar hybrid versions, the ACDC12, and ACDC12B, the ACDC12C blends solar DC power directly with AC power to deliver a seamless cooling or heating experience while making the best use of free DC solar power.

Do acdc12c solar air conditioners need batteries?

ACDC12C solar air conditioners need no batteries, and uses three or more (up to six) solar PV panels to deliver a huge savings. During the day, when air conditioning is needed the most, you can operate this unit with very little or no draw on your utility meter. At night, you continue to save due to the official SEER 22 rating on this unit.
