
Austria solar and Energy Storage

Why is Austria boosting its solar power capacity?

Moreover, the maximum subsidy for electrical storage systems has been raised from EUR25,000 to EUR50,000, reflecting a commitment to bolstering the infrastructure necessary for sustainable energy storage. Austria's solar power capacity has been on a steady upward trajectory, buoyed by supportive government policies and declining technology costs.

Does Austria offer a "made in Europe" bonus for solar PV?

Previously, the Austrian Climate Protection Ministry had announced the 'Made in Europe' bonus scheme for only solar systems (see [Austria Announces Made In Europe Bonus For Solar PV](#)). For this year, the ministry is offering a total of EUR70 million in funding -- at 'legally required minimum level' -- for solar PV, hydropower, wind and biomass projects.

What is Austria's solar power capacity?

Austria's solar power capacity has been on a steady upward trajectory, buoyed by supportive government policies and declining technology costs. As of the end of 2023, Austria's solar power capacity had reached 3,667 MW, according to the International Renewable Energy Agency (IRENA).

Is Austria poised for a significant transformation in solar energy?

Austria's solar energy sector is poised for a significant transformation as the government updates its subsidy guidelines to incentivize more power purchase agreements (PPAs) for solar photovoltaic (PV) projects.

Austria's Federal Ministry for Economic Affairs announced plans to launch a new funding round on June 23, 2025, offering up to 20% "Made in Europe" bonuses for small-scale solar photovoltaic (PV) and ...

The move continues a trend set by a similar subsidy for European solar panel manufacturers last year, providing significant support for Austria's domestic PV industry. While ...

The Austrian Ministry of Economic Affairs and Energy has announced a "Made in Europe" bonus of 20% to government funding for PV and energy storage projects that use components made in Europe.

Vienna's third and final subsidy call offers EUR8 million (\$9.2 million) in incentives and a 10% "Made in Europe" bonus for new or expanded solar-plus-storage systems.

A second call for subsidy applications for solar and storage in Austria - held from June 23 and July 7 and with a budget of EUR12 million - attracted so many responses the funding pot has risen to EUR48.8 million, ...

Austria will need a battery energy storage capacity of 8.7 GW by 2040 to address the expansion of renewable systems and the rising power demand, according to a study published

on Thursday.

The Austrian Ministry of Economic Affairs says it plans to offer up to a 20% 'Made in Europe' bonus for eligible small scale solar and energy storage projects for using European components in a funding call to be ...
