# BAK Power Battery Energy Storage

What products & services does Bak power offer?

BAK Power's products and services include cylindrical, prismatic and polymer batteries, battery packaging and battery solutions, which are mainly used in new energy vehicles, consumer products, and back-up energy storage.

Who is Bak battery?

Liu Zhibo, Bak Battery's Executive Vice President, stated: "As an early pioneer in China's lithium battery sector, Bak has driven the industry's rise from follower to global leader. At this pivotal moment in energy transition, we remain committed to innovation, R&D, and high-quality solutions to empower sustainable growth and a greener future."

How safe is Bak e-bike battery?

The 4680 cell achieves an energy density of 300 Wh/kg, 4C fast charging, and zero thermal runaway. For e-bike safety, Bak's PRO-M battery meets China's stringent GB43854-2024 and GB40559-2024 standards, passes rigorous nail penetration tests, and offers wide-temperature adaptability and long cycle life, redefining urban mobility.

What makes Bak battery unique?

As a global leader in lithium battery technology, Bak Battery unveiled its three core product lines--cylindrical, polymer, and prismatic batteries--demonstrating a full-scenario product matrix designed to inject robust momentum into the development of advanced productivity.

BAK Battery's new square 314Ah high-capacity energy storage cell redefines performance benchmarks with exceptional longevity, cost-effectiveness, and reliability. It ...

BAK Power's products and services include cylindrical, prismatic and polymer batteries, battery packaging and battery solutions, which are mainly used in new energy vehicles, consumer products, and back-up energy storage.

BAK New Power, established in 2019, is a leading innovator in the lithium battery industry, specializing in the development, production, and distribution of advanced battery systems. The company operates under the brand ...

BAK Battery unveils the 688Ah large-capacity energy storage cell, offering 6.9MWh system capacity, reducing system costs by 8%, and enhancing safety and durability.

BAK Battery's new square 314Ah high-capacity energy storage cell establishes a fresh benchmark for longevity, economy, and dependability, featuring an ultra-long cycle life of ...

BAK Battery launches 688Ah large-capacity energy storage cell with 435Wh/L energy density, 12,000+ cycle life, 8% system cost savings, and industry-leading safety.
