
Batteries as a new energy storage device

Batteries Batteries is an international, peer-reviewed, open access journal on battery technology and materials published monthly online by MDPI. The International Society for Porous Media ...

Anode-less sodium metal batteries have drawn dramatic attention owing to their high specific energy and low cost. However, the growth of sodium dendrites and the resulting ...

Lithium-ion batteries are one of the critical components in electric vehicles (EVs) and play an important role in green energy transportation. In this paper, lithium-ion batteries ...

Batteries and green molecules are essential for reaching net zero. Batteries provide short-term grid flexibility, while green molecules decarbonize hard-to-abate sectors.

All articles published in Batteries (ISSN 2313-0105) are published in full open access. An article processing charge (APC) of CHF 2700 (Swiss francs) applies to papers accepted after peer ...

As efforts towards greener energy and mobility solutions are constantly increasing, so is the demand for lithium-ion batteries (LIBs).

Based on data gathered from completed and ongoing electric and hybrid aircraft projects, this study deals with the suitability of many different types of lithium-based batteries ...
