## Battery inverter for outdoor camping

Should you buy a portable power inverter when camping?

This is another area that will drastically change your purchase needs when it comes to a portable power inverter when camping. Shorter durations in the outdoors can give you more flexibility in your power inverter choice.

Do you need a power inverter if you're away from home?

But when you're away from home, a power inverter is a great choice for keeping power when you need it, where you need it. With a power inverter, you can charge your devices, use equipment--even run appliances. There are different types. Some require gasoline/propane to run. Others need deep cycle batteries. Still, others use solar energy.

What is a power inverter?

The phrase "power inverter" sounds kind of sci-fi at first. Almost like something you'd hear on a television show, or in the movies--"I can't transport the rest of the crew until I've had a chance to fix the power inverter, Captain". But, in reality, it's a tool, not unlike a power drill or a screwdriver.

Do camping inverters have a fuel shutoff?

If you're looking for camping inverters that will give you the capability you need, this is definitely it. Plus, it has a fuel shutoff. With a fuel shutoff, this power inverter will use up whatever fuel remains in the carburetor. Then it will shut down. This helps reduce build-up in the carburetor, which can make the machine last longer.
