# Boston DC Inverter Company

Who makes power inverters?

EPC Power is the only manufacturer in North America producing grid-scale power inverters. A power inverter is a device that converts electricity between AC (Alternating Current) and DC (Direct Current). AC electricity is the type that powers our homes through power lines, while DC electricity is commonly supplied by batteries.

What is the difference between AC and DC power inverters?

AC electricity is the type that powers our homes through power lines, while DC electricity is commonly supplied by batteries. EPC Power inverters are utilized in various applications, with the primary uses in solar and large-scale battery storage facilities.

What are AIMS Power inverters?

AIMS Power inverters are a complete line of DC to AC power inverters. They are available in 12 volt, 24 volt, and 48 volt power inverters, including off-grid and car power inverters.

What types of power inverters are available?

AimsPower offers a complete line of DC to AC power inverters in various configurations. Our inverters are available in 12 volt, 24 volt, and 48 volt models. We provide both pure sine wave and modified sine wave inverters, along with specialty DC power inverter products like commercial three-phase power inverters.

Custom manufacturer of DC to AC inverters available in variety of series. Specifications of DC to AC inverters include 600 W to 3,000 W output power & 10 VDC to 800 VDC input voltage. DC ...

A broad range of POWER INVERTERS manufacturers has been compiled in this industrial directory designed to provide information on leading, quality oriented manufacturers serving ...

Ultimate Power specializes in high-performance AC and DC power solutions, including inverter/chargers, lithium iron batteries, and battery management systems. Our products are ...

Sineng Electric is a global leading manufacturer that offers a comprehensive product portfolio including PV inverters, energy storage inverters, and power quality products.

EPC Power is the only manufacturer in North America producing grid-scale power inverters. A power inverter is a device that converts electricity between AC (Alternating ...

Discover power electronics companies like SynQor and Ixys in Massachusetts, driving innovation in energy conversion and management technologies.

Beta Dyne, Inc. Specialist in High Voltage, High Power Density, and Low-Noise DC/DC Converters, Ring Generators, and Switching Regulators. We also offer complete design and ...
