UK Solar power bifacial modules are designed to perform to the highest British standardsto deliver up to 22.5% efficiency with British guarantees of 30 years you can trust. Latest superior technology to collect energy from the front and rear side of the panel. 30 years Performance warranty. 12 years double backed Material &workmanship warranty.

What are bifacial solar panels?

Most bifacial solar panels are made from monocrystalline cells,which offer a higher efficiency to maximise energy output. Some manufacturers also use polycrystalline as a cost-effective alternative. Both sides of the panel use PV cells designed to absorb light effectively,with the rear side optimized to capture reflected or ambient light.

How much do bifacial panels cost in the UK?

For the average home in the UK,bifacial panels in the UK tend to cost between £9,900 - £11,000,including installation. Generally,because of their advanced design and specialised equipment,bifacial panels prices are around 10% higher than the cost of solar panels with a monofacial design.
