# **Brunei solar power generation and energy storage application companies**

Does Brunei have solar panels?

Due to the country's extensive hydrocarbon deposits, which are used to fuel its thermal power plants to produce energy, Brunei has some of the lowest electricity costs in the area. Due to the fact that grid parity has not yet been attained, this does not encourage individuals to install their own solar panels.

Who owns Brunei energy services & trading (best)?

Brunei Energy Services and Trading (BEST) is the national oil company owned by the Brunei government. The company was granted all mineral rights in eight prime onshore and offshore petroleum blocks totaling 20,552 sq. km. PB manages contracts with Shell and Petronas, which are exploring Brunei's onshore and deep-water offshore blocks.

Will Brunei build a solar power plant in 2022?

Construction of the solar power plant is slated to start in 2022, with \$50,000 earmarked to conduct a land survey in Kg Sg Akar. Both the Bukit Panggal and Belingus solar farms will produce 15 MW of solar energy. Apart from the three new solar power plants, Brunei will expand its solar energy project in Seria from 1.2 MW to 4.2 MW.

Who owns the solar plant in Brunei?

The solar plant in Brunei is currently operated and maintained by BSP. Agnetha Johnsgaard-Lewis, BSP Managing Director and Shell Country Chair in Brunei, shared this information.
