What is Hapag-Lloyd's "Brussels Express"?

Hapag-Lloyd's "Brussels Express" is the world's first large container ship to be converted to LNG propulsion and, in mid-June, it arrived in its home port of Hamburg for the first time. But not everything is running smoothly yet.

Was ist das erste Großcontainerschiff in Hamburg?

World's first large container ship converted to LNG to arrive in Hamburg „Brussels Express“ lief erstmals in seinen Heimathafen Hamburg ein - es ist das weltweit erste Großcontainerschiff, das auf Gasantrieb umgerüstet worden ist.

How will large container ships work?

The large container ships will be outfitted with a state-of-the-art high-pressure dual-fuel engine that will be extremely fuel-efficient. Their engine will operate on LNG, but the vessels will also have sufficient tank capacity to operate on conventional fuel as an alternative.

Did Hapag-Lloyd rename the "Brussels Express"?

In a nod to the European Green Deal, Hapag-Lloyd has renamed the ship the "Brussels Express". In addition, the phrase "Shipping for a cleaner future!" adorns the breakwater on the forecastle. "So it wasn't until the Suez Canal that I was able to see the ship in its 'finished' form and sailing on the water for the first time."
