
Czech solar panel greenhouse manufacturer

Where are photovoltaic power plants built?

Since 2007, we have built photovoltaic power plants for ourselves and our customers in the Czech Republic and abroad (United Kingdom, Romania, Turkey, Hungary, Russia, Kazakhstan and Ukraine) with a combined capacity of 428 MWp.

Who is Sun construct?

The company, Sun Construct s.r.o., specializes in solar energy and tailored photovoltaic power plants, offering comprehensive services including project management, installation, and financing solutions. They emphasize investing in sustainable futures through solar power, assisting clients in selecting suppliers and obtaining subsidies.

What is solar power production from photovoltaic power plants (PVPP)?

Solar power production from photovoltaic power plants (PVPP) has great prospects. The constantly decreasing costs of photovoltaic technology make solar power fully competitive with electricity supplied from the grid. Solar power is one of the inexhaustible energy sources.

How many MWp is a photovoltaic roof?

In addition, we have implemented installations of photovoltaic panels on roofs with a total area of 4 MWp. Since 2012, we have designed small ecological power sources for own consumption, which we see as more meaningful and a return to the natural use of renewable resources.

List of greenhouses companies, manufacturers and suppliers serving Czech Republic
