
Dakar Traffic Inverter R

What is the Dakar bus rapid transit (BRT)?

The Dakar Bus Rapid Transit (BRT) establishes a new benchmark for sustainable public transport in Africa and showcases the future of decarbonised urban mobility to the many metropolises across the continent seeking to implement climate-smart mobility solutions.

Why is Dakar so dangerous?

Dakar is home to close to a quarter of the Senegalese population but underdeveloped and expensive transport options leave 70% of its people reliant on walking as their main mode of transport. With road-related infrastructure designed around the needs of motorists, it can prove dangerous to pedestrians.

Who owns Dakar Mobilité?

The shareholders of Dakar Mobilité are infrastructure investment group Meridiam (70%) and the Senegalese sovereign fund for strategic investments into the country, Fonsis (30%).

Are diesel buses a good investment in Africa?

Diesel buses account for the majority of passenger trips in African cities and new, more energy efficient replacements will also improve passenger comfort, convenience and safety. The investment complements progressive public policy designed to reduce the country's dependence on hydrocarbons.
