## Does EK Manila have any energy storage projects

Why should you invest in energy storage in the Philippines?

If you have energy storage, you can save the extra electricity generated when the sun is shining or the wind is blowing and use it later when you need it. The energy storage market in the Philippines is growing fast, with lots of new projects and technologies popping up.

Can the Philippines take advantage of energy storage innovations?

The Philippines is in a great position to take advantage of energy storage innovations as it moves toward a more reliable and sustainable energy future. With different technologies like battery storage, pumped hydro systems, and new ideas like microgrids and second-life batteries, the future looks promising.

What is a pumped-storage hydroelectric project in the Philippines?

Share this story! Ultra bilyonaryo Enrique K. Razon Jr.'s Prime Infrastructure Capital Inc. is pushing forward with two major pumped-storage hydroelectric projects--the 600-megawatt (MW) Wawa and the 1,400MW Pakil facilities--aimed at strengthening the Philippines' energy security and renewable energy capacity.

Does Prime Infra have pumped storage projects in the Philippines?

Two of Prime Infra's pumped storage projects, planned for development in the Philippines, have received Certificates of Energy Project of National Significance (CEPNS) from the Department of Energy (DOE).
