# EK Solar Inverter in Brno Czech Republic

What is a solar inverter?

The solar inverter or inverter converts direct current into alternating current, thanks to which the energy from the photovoltaic system can only be used. We offer classic or hybrid (mains and battery) inverters with different performance and characteristics.

How does a solar inverter work?

The inverter converts direct current into alternating current, thanks to which the energy from the photovoltaic system can only be used. It monitors the performance of solar panels, important network parameters and values, ensuring high yields and safety of the photovoltaic system.

Who is ekotechnik?
