
EU LCL Wholesale

What is Europe less than container load (LCL) market size?

The Europe less than container load (LCL) market size for international moves is forecast to grow at a 4.4% CAGR, buoyed by trade liberalization with Asia-Pacific and corridor diversification around the Red Sea disruption. Post-Brexit customs procedures add documentation layers that make consolidated services more cost-effective on UK-EU corridors.

How are LCL shipments packed?

LCL shipments are often packed in euro pallets or wooden boxes and protective film. The chances of getting your LCL sea freight, rail freight, or truck freight from A to B is highly dependent on the quality of packaging. Cargo leaving the European Community (EC) has to be declared to the Customs Administration.

What does LCL mean in shipping?

Contact us! What does LCL mean? LCL stands for "Less-than-container load" and describes sea freight shipments that do not completely fill a container. Several shipments from different customers are consolidated into one load, which enables cost advantages.
