
Egypt solar cell modules

A joint venture including JA Solar has broken ground on a major \$210 million solar and energy storage manufacturing complex in Egypt's Sokhna area, aiming for significant ...

June 25, 2025 China's Sunrev to Start 2GW Solar Cell, Module Lines in Egypt by H1 2026
Sunrev Solar is looking to begin production at its first 2 gigawatts solar cell and module lines in Egypt's ...

JA Solar is a lead partner in a JV that broke ground this week on a new PV cell, module and energy storage manufacturing facility in Egypt.

Designed with a planned capacity of 2GW solar cells, 2GW solar modules and 1GWh energy storage systems, the solar complex is scheduled to be completed in three years.

The "Atum Solar" project, located in the TEDA industrial zone, aims to manufacture 2 GW of solar cells and 2 GW of solar modules annually.

The Atum Solar Complex will include 2 GW of solar cell capacity, 2 GW of solar module capacity, and 1 GWh of ESS in Egypt All solar cells produced will be exported, while ...

The 200 square meter facility is targeting an annual manufacturing capacity of 2 GW of solar cells and 2 GW of solar modules. The solar cell production will be 100% for export.
