
Find a regular manufacturer to install solar panels

Who is a certified solar installer?

The North American Board of Certified Energy Practitioners (NABCEP) is the gold standard for solar installer certification. Only certified professionals should design and oversee your installation. Solar installation requires electrical and sometimes general contractor licenses.

Do I need a license to install solar panels?

Solar installation requires electrical and sometimes general contractor licenses. Proper insurance protects you from liability and ensures the company is legitimate. Experienced local installers understand your area's permit requirements, utility interconnection processes, and local building codes.

Who is SolarSpace & RonmaSolar?

SolarSpace is a leading manufacturer of solar cells and modules, emphasizing high-efficiency solar technology production with over 30GW capacity for solar cells and 6GW for modules.
