
Free Consultation for 40kWh Mobile Energy Storage Container in Canada

Who is energy storage Canada?

Energy Storage Canada is the only national voice for energy storage in Canada today. We focus exclusively on energy storage and speak for the entire industry because we represent the full value chain range of energy storage opportunities in our own markets and internationally.

How many MWh can a container hold?

Range of MWh: we offer 20,30 and 40-foot container sizes to provide an energy capacity range of 1.0 - 2.9 MWh per container to meet all levels of energy storage demands. Optimized price performance for every usage scenario: customized design to offer both competitive up-front cost and lowest cost-of-ownership.

What is microgreen energy storage?

Microgreen offers large-scale energy storage that is reliable in harsh environments, cost effective with top energy density, and provides best return on investment.

Where can a portable power container be used?

The MOBIPOWER portable power container can be used virtually anywhere on the planet and will produce and store all the power you will need.

MOBIPOWER hybrid clean power containers combine battery energy storage systems with off-grid solar containers for remote industrial sites in Canada & USA.
