
Generator outdoor power usage cost

How much does a generator cost?

Portable gasoline generators cost \$500 to \$2,500 for a 3 to 10 kW backup unit. Whole house generators cost \$2,000 to \$6,000 a natural gas or liquid propane system, without installation. Standby backup diesel generators cost \$5,000 to \$18,000. *Prices for units with power capacity of 2 to 24 kW. Not including installation.

How much does a portable gas generator cost?

A portable gas generator providing 5kW of power can cost about \$100 a day to run, depending on gas prices. Installation costs, including any needed concrete work, is part of the total cost.

How much power does a generator use a day?

According to the US Energy Information Administration, the average American household uses just short of 900 kilowatt-hours per month, about 30kWh per day. Typically, generators with 20kW of capacity are considered whole-home generators and cost more. If a generator has less than 10kW of power, it's meant for smaller jobs and will cost less.

How much does a standby generator cost?

Standby backup generators are permanently installed outside the home, start automatically when the power goes out, and can power the entire house for up to 3 weeks straight. Portable gasoline generators cost \$500 to \$2,500 for a 3 to 10 kW backup unit.
