
Georgia Energy Storage Power Station Electricity Price Standard

Will Georgia Power pay for data centers?

Georgia Power has said regular customers won't pay for power plants and transmission lines needed to electrify data centers, a pledge now backed by commission rules. But the company said in talks with commission staff that it could ask for a rate increase of up to \$2.6 billion over three years.

Will Georgia Power keep base rates steady through 2028?

Georgia regulators have approved a plan to keep Georgia Power's base rates steady through 2028. The unanimous decision by the Public Service Commission on Tuesday follows an agreement between the utility and regulatory staff.

How much does Georgia Power pay a month?

A typical Georgia Power residential customer now pays more than \$175 a month, including taxes. The agreement allows Echols and Commissioner Fitz Johnson to seek reelection this year without a rate increase threatening their campaigns. Echols will face Democrat Alicia Johnson in November.

Will Georgia Power pay a rate increase?

In testimony, Georgia Power Chief Financial Officer Aaron Abramovitz said the company hopes any rate increase to repay the damage could be offset with a decrease in the charge customers have been paying since 2023 to make up for higher costs of buying natural gas and coal.
