# Government Procurement of 50kW Photovoltaic Folding Container

What is Huijue's folding solar PV container?

Huijue Group newly launched a folding photovoltaic container, the latest containerized solar power product, with dozens of folding solar panels, aimed at solar power generation, with a capacity for mobility to provide green energy all over the world. The Solar PV container is a mobile, plug-and-play solar energy solution.

What is a folding solar photovoltaic container?

The folding solar photovoltaic container developed by the Huijue Group represents a pioneering, flexible, and effective solution in energy provision. Besides meeting the demand of energy in different scenarios, this container will enable optimized utilization of resources by introducing module design and a powerful electricity generation system.

What is a solar PV container?

The Solar PV container is a mobile, plug-and-play solar energy solution. It's designed to be foldable, integrated for fast deployment anywhere. Just lay the track, pull it gently, and the solar panels will be deployed. Start working efficiently, keeping up continuous conversion of solar energy to electricity.

What are the benefits of folding solar containers?

Folding solar containers replace traditional diesel generators with sustainable green solar energy to reduce diesel use, lower emissions, and allow users to cut energy costs while protecting the environment. Agriculture and water irrigation: Provide stable power supply for agricultural irrigation in remote areas.

The greatest merit of folding photovoltaic panel containers is their high degree of mobility, avoiding the large occupation of land by traditional solar power generation systems. ...

The Solarfold photovoltaic container can be used anywhere and is characterized by its flexible and lightweight substructure. The semi-automatic electric drive brings the mobile ...

The PFIC50K64P30 is a compact all-in-one solar storage system integrating a 50kW power output, 64kWh energy storage capacity, and 30kWp high-efficiency foldable PV ...

Federal Aggregated Solar Procurement Project  
USDA Agricultural Research Services, Davis, California  
USDA Agricultural Research Services, Fort Collins, Colorado  
LBNL assisted the USDA ARS in awarding a contract to install a 36-kilowatt, roof-mounted PV system at the agency's research farm on the outskirts of Fort Collins. This installation, slated for March 2021, eventually will include a battery energy storage system (BESS) to reduce demand charges and provide resiliency benefits. See more on [so.lbl.gov/porta/energy/cn/PFIC50K64P30/Foldable PV Container | 50kW/64kWh Solar ...](https://so.lbl.gov/porta/energy/cn/PFIC50K64P30/Foldable%20PV%20Container%20%7C%2050kW%2F64kWh%20Solar%20...)  
The PFIC50K64P30 is a compact all-in-one solar storage system integrating a 50kW power output, 64kWh energy storage capacity, and 30kWp high-efficiency foldable PV ...

---

These resources provide information and best practices for federal facilities interested in procuring on-site solar photovoltaic (PV) systems.
