# High-end inverter manufacturer in New York USA

Who makes power inverters?

EPC Power is the only manufacturer in North America producing grid-scale power inverters. A power inverter is a device that converts electricity between AC (Alternating Current) and DC (Direct Current). AC electricity is the type that powers our homes through power lines, while DC electricity is commonly supplied by batteries.

Who makes the best solar inverter?

Known for their durable and reliable inverters made in the USA, OutBack Power is a premier choice for off-grid and battery-based solar systems. The company is based in Arlington, Washington and has been delivering advanced power solutions since 2001.
