# High-performance solar glass products

Which float glass is best for solar energy conversion?

Glass for maximising solar energy conversion. Pilkington Optiwhite(TM)is a range of extra clear low-iron float glass products with very high solar transmittance,offering improved solar energy conversion and consistent performances.

Why do photovoltaics need solar glass?

Whether on Earth or in space,photovoltaics require technical solar glass for protection from harsh environments,as well as to sustain high transmittance in the visible spectrum of light up to near-infrared that increases the efficiency of the cell while shielding against harmful radiation.

Is Schott Solar glass ECSS-E-st-20-08c certified?

SCHOTT®; Solar Glass 0787 is space-qualifiedto ECSS-E-ST-20-08C standard and complies with EU-RoHS and EU-REACH standards. We are also ISO 9001- and 14001-certified. SCHOTT has a number of other glass types with similar properties to Solar Cell Cover Glasses for different products. Discover which one answers your challenge.

Why should you choose Schott Solar cell cover glass?

Design opportunities are further enhanced by the availability of different coatings. SCHOTT's Solar Cell Cover Glasses are available as two variants, SCHOTT®; Solar Glass 0787 and SCHOTT®; Solar Glass sphere, each one providing specific technical properties for challenging environments.

SCHOTT®; Solar Glass utilized as cover glass, provides solid protection for high-performance solar cells. By combining lightweight, extremely durable materials with outstanding optical ...

SCHOTT®; Solar Glass utilized as cover glass, provides solid protection for high-performance solar cells. By combining lightweight, extremely durable materials with outstanding optical transmittance, SCHOTT®; Solar Glass ...

Explore the future of solar glass with New Way Glass, China's leading supplier of high-quality photovoltaic (PV) glass. We provide innovative, sustainable solar energy solutions that ...

High-Performance Solar Glass and Glazing Products Glass Light Power offers a comprehensive range of solar glass and glazing products designed for maximum energy efficiency and ...

Saint-Gobain, a historic leader in the building materials sector, is a significant supplier of high-performance glass for the solar industry. The company leverages its expertise ...

Solar glass is a specialized low-iron, tempered soda-lime silicate glass, often enhanced with an anti-reflective coating. This combination delivers ultra-high light transmittance, superior ...

---

Our range of solar glass products is designed and optimised to suit the requirements of various solar technologies with properties such as high solar energy transmittance, strength and ...
