
High quality power switchgear in Ecuador

What is Intelligent Switchgear?

Intelligent switchgear is the future of high voltage power systems. DOHO's intelligent HV switchgear is designed with a control system that autonomously monitors, alerts and protects your equipment from faults using our own made software. We are also ODM and OEM switchgear manufacturer.

What is Doho switchgear?

DOHO is part of the industry's high voltage manufacturers that delivers switchgear for electrical systems above 36kV. We supply switchgear for power generation and transmission substations, power distribution systems, industrial and commercial heavy duty power installations etc.

Who makes HV switchgear?

For more than 10 years, DOHO has deployed thousands of HV switchgear across the globe earning a place in the list of electrical switchgear manufacturers that you can trust. Over the years, we've also developed new technologies, acquiring several patents along the way.

Why do you need a high voltage switchgear?

High voltage power systems must operate safely to protect both personnel and equipment or circuits. DOHO supplies modern HV switchgear that offers higher levels of reliability, safety, and lower maintenance requirements, providing for uninterrupted and safe operations. Do you intend to upgrade your switchgear or expand your company in the future?

Historical Data and Forecast of Ecuador High-Voltage Switchgear Market Revenues & Volume By Power Distribution for the Period 2020- 2030 Historical Data and Forecast of Ecuador High

...

The South America High Voltage Switchgear Market is growing at a CAGR of greater than 6% over the next 5 years. ABB Ltd., ...

In conclusion, the combination of durability, reliability, user-friendly designs, and smart technological advancements constitutes the hallmark of high-quality low and medium voltage

...

The internal design is produced according to international and local standards in Ecuador, fully meeting the customer's electricity needs. If you need to export high and low ...

The South America High Voltage Switchgear Market is growing at a CAGR of greater than 6% over the next 5 years. ABB Ltd., General Electric Company, Siemens AG, ...

The WKC is also competence center for the air conditioning of switchgear, has its own test laboratory, and is a certified UL Panels shop. Siemens WKC therefore is happy to ...

High-quality Materials 1. TSTY box-type substation shell adopts 7 layers of nano-composite coating and one-piece shell processing technology, with excellent anti-corrosion performance
