# Ireland's Automated Mobile Energy Storage Containerized Project

What is the electricity storage policy framework for Ireland?

In line with CAP Action EL/24/16, the Electricity Storage Policy Framework for Ireland (ESPF) was published by my Department in July 2024. The policy framework included 10 Government actions to support the role of electricity storage systems in Ireland's energy transition.

What is Ireland's energy transition policy framework?

The policy framework included 10 Government actions to support the role of electricity storage systems in Ireland's energy transition. Actions #6 to #10 of the policy framework are designed to stimulate the development of the optimum level of electricity storage systems, including Long Duration Electricity Storage on to the grid network by 2040.

Is Ireland's energy sector undergoing a transformation?

Ireland's energy sector is undergoing a crucial transformation, with EirGrid's October 2025 consultation on the Long Duration Energy Storage (LDES) Procurement Mechanism marking an important milestone for storage developers and investors in this space.

What is EirGrid's long duration energy storage (LDES) procurement mechanism?

In line with Action #6, EirGrid, in conjunction with the Regulatory Authority, are developing a procurement mechanism for long-duration electricity storage, through their Long Duration Energy Storage (LDES) product. The LDES product is in its initial stages with 2 separate public consultations expected in 2025 and 2026.

Irish grid operator EirGrid set the proposed minimum procurement for long duration energy storage procurement at 201 MW, well below its initial 2030 goal of 500 MW of storage ...
