
Long-lasting photovoltaic container for highways in Tunisia

Which companies are building solar projects in Tunisia?

The latter companies already have a footprint in Tunisia, with Voltaia announcing plans to build a 130MW solar project in the country in May, and Scatec collaborating with Aeolus to build a 120MW project in August. The second tender calls for two projects of unspecified capacity in Hechain, Gabes governate and Khobna, Sidi Bouzid governate.

How is Tunisia accelerating its energy transition?

Tunisia is accelerating its energy transition by awarding 4 solar photovoltaic projects totaling 498 MW to reduce import dependency and promote renewable energy. Faced with growing energy dependency, Tunisia is taking a decisive step forward in its commitment to renewable energy.

What is the productivity of photovoltaic systems in Tunisia?

Given these favourable conditions, the productivity of photovoltaic systems in Tunisia is very high. According to the International Renewable Energy Agency's (IRENA) Global Atlas, annual electricity production from PV systems ranges from 1,450 kWh per kilowatt peak (kWp) in the northwest to 1,830 kWh/kWp in the extreme southeast.

Will Tunisia reach a "35% by 2030" renewables target?

New contracts for 498MW of solar PV projects bring Tunisia closer to its renewable energy ambitions. But a '35% by 2030' renewables target looks out of reach. Tunisia's energy ministry on 26 December announced that it had awarded four contracts for solar PV projects totaling 498MW as the country's renewable energy ambitions edge forward.

Tunisia has announced the winners of tenders for over 500MW of solar capacity, including Qair International and Voltaia.

Tunisia previously awarded five photovoltaic solar energy projects with a combined capacity of 500 MW across five governorates: 200 MW in Tataouine, 50 MW in Tozeur, 50 MW in Sidi Bouzid, 100 MW in ...
