
Magnetic field strength next to the solar container communication station battery

8. Materials with energy gaps associated with excitations in the electronic and magnetic spectrum exhibit a variety of interesting physics. ...

9. The susceptibility of weak magnetic substance is difficult to be precisely measured, due to its very small value.

5. Because the accretion disk itself is believed to be magnetized, the rotation of the disk can twist the magnetic field lines into a helix. ...

1. The Sun dominates the solar system, and those planets that are magnetic attempt to align with the Sun in one way or another. ...

9. The disappearance of the Earth 's magnetic field and with no doubt reversal between biology major contradiction.

1. A magnetostriction and magnetic anisotropy measuring device comprises a body, a central device and a main panel part.

4. This particular system is different from the conventional magnetic inductive system and is called Capacitor Discharge Ignition (CDI). ...
