# Malta mobile energy storage site inverter connected to the grid

What is interconnect Malta & how does it work?

First announced in June 2023, the project is being led by Interconnect Malta, an Energy Ministry agency responsible for energy infrastructure projects. Batteries will be charged using power fed into the national grid by photovoltaic panels during daytime hours and will then discharge power at nighttime.

What if Malta is isolated from the Italian Grid?

Provide fast frequency and voltage stabilisation to the Maltese grid in case Malta is isolated from the Italian grid because of maintenance or faults. ERA reviews the Project Description Statement and confirms that an Environmental Impact Assessment (EIA) is not required

What is Malta doing to improve climate & energy?

This initiative underscores Malta's commitment to achieving long-term climate and energy goals, including reducing carbon emissions, enhancing the integration of renewable energy sources (RES), and ensuring a more stable energy supply.

Where are battery energy storage systems located?

The battery energy storage systems (BESS) will be located in Marsa and Delimara, on Enemalta grounds in both localities. First announced in June 2023, the project is being led by Interconnect Malta, an Energy Ministry agency responsible for energy infrastructure projects.

Get all the information you need for your trip to Malta! Book tickets, discover new places to visit, find amazing things to do and more!

Virtue Solaris offers you a unique battery storage solution based on high voltage lithium ion batteries produced by renowned electronics manufacturer Huawei.

Economic aspects of grid-connected energy storage systems Modern energy infrastructure relies on grid-connected energy storage systems (ESS) for grid stability, renewable energy ...

Explore Malta's renewable energy revolution, focusing on solar and wind power initiatives, energy storage solutions, and the challenges faced in achieving sustainability.

With an investment of an estimated EUR47 million with European Union co-financing, this project includes the installation of two battery energy storage plants, one at the site of the ...

A project to build two massive battery storage systems that can capture electricity generated from renewable energy sources is now open to bidders. The battery energy storage ...

InterConnect Malta has been entrusted the responsibility to implement Battery Energy Storage Systems (BESS) to be connected to the Maltese National electric grid network.
