
Modern energy storage solutions in Montenegro

Montenegro offers promising investment potentials in renewable energy integration and battery storage capacities to effectively balance new renewable energy capacity on the grid. Here are ...

Montenegro invests EUR48M in 240 MWh battery energy storage systems to enhance grid stability and accelerate its renewable energy transition.

EPCG's pioneering move to install battery energy storage systems is a significant step in the modernization and stabilization of Montenegro's energy infrastructure. The project ...

By embracing cutting-edge storage solutions, EPCG demonstrates a proactive stance on addressing modern energy challenges, setting a precedent for neighboring countries.

Montenegro's state-owned power utility, Elektroprivreda Crne Gore, has launched a tender for the procurement and installation of two battery energy storage systems with a total ...

EPCG, Montenegro's state utility, aims to procure two grid-scale battery storage systems (BESS) totaling 240 MWh in a EUR48 million (\$55.9 million) tender.

EPCG, Montenegro's largest electricity provider, is investing in two four-hour battery energy storage systems (BESS) to strengthen grid resilience and balance supply and demand. ...
