
New energy storage projects in Brazil

Will Brazil conduct the first energy storage auction?

Brazil is set to conduct the country's first-ever energy storage auction for adding batteries and storage systems to the national power grid.

Will Brazil's first electricity auction drive \$450m investment?

Brazil is set to conduct its first auction for adding batteries and storage systems to the national power grid, as reported by Reuters. The auction, to take place in June 2025, will include 300MW energy capacity purchase that could drive an estimated \$450m in investments from winning bidders, according to consultants Oliver Wyman.

Will Brazil's energy auction improve power grid reliability?

Interest in the auction has been expressed by power companies such as Portugal's EDP and Brazil's ISA Energia. The auction will enhance Brazil's power grid reliability by integrating energy storage solutions for electricity generated from renewable sources such as wind and solar. US Tariffs are shifting - will you react or anticipate?

What is Brazil's ten-year power auction?

The auction will offer ten-year contracts from July 2029. The auction aims to boost Brazil's grid reliability by integrating energy storage for wind and solar power. Credit:

Brazil launches a 2026 energy storage auction to boost large-scale battery projects and define storage's role in its evolving power market.

Brazil is set to conduct its first auction for adding batteries and storage systems to the national power grid, as reported by Reuters. The auction, to take place in June 2025, will ...

Brazil's energy storage market remains a marginal one with an estimated capacity of 250MWh, comprising primarily of rural and rooftop installations (ETN, 2023). Solar PV-based distributed ...

Explore Brazil's 19.2GW solar growth in 2025 and why battery storage is crucial for businesses. Learn about DG opportunities, new regulations, and how DLCPO's lithium ...

The agreement aims to promote battery energy storage systems (BESS) for the commercial, industrial and agricultural sectors in Brazil, and both companies are optimistic ...

The partnership comes at a pivotal time as Brazil prepares for its first Capacity Reserve Auction (LRCAP) in 2025, exclusively dedicated to energy storage. This collaboration ...

Brazil's UCB Power Launches Residential/C&I Energy Storage Projects, Featuring 215kWh Units with a Maintenance-Free Plug-and-Play Design Brazilian energy storage ...
