# Off-grid cost of folding containers in Africa

Should you build a container home in South Africa?

Building a container home in South Africa can be an affordable, stylish, and sustainable housing solution. But unexpected costs, unclear regulations, and off-grid needs can quickly spiral if not planned properly. This guide helps you avoid those surprises.

What is a folding container home?

A folding container home is a steel flat-pack unit that arrives at standard container height and is installed using a crane. Once placed on level footings, the travel bolts are removed, allowing the floor to drop down, the sidewalls to be manually pushed out, and the roof panel to lock into place.

How much does a shell cost in South Africa?

A studio-size 27 m<sup>2</sup>; shell with basic finishes starts from R175 000, while a fully specced 72 m<sup>2</sup>; three-bed comes in at a price of R570 000. Delivery averages R6 000-R22 000 per unit within South Africa subject to current diesel rates and abnormal-load permits.
