
PV inverter account number

How do I Register my inverter?

If you have an inverter with a serial number for the lower Communication Unit (CU) and a different number for the upper Power Unit (PU), register your product using the serial number shown on the type tag of the CU (lower enclosure). What if I don't know the commissioning date?

Who must provide data to the solar panel serial number Ledger?

Under the Renewable Energy Target, manufacturers and importers must provide data to the solar panel serial number ledger and inverter serial number ledger if: your products are on the Clean Energy Council's (CEC) approved PV module or inverter lists. If you have products included on the CEC-approved lists, you're known as a responsible supplier.

What is a solar PV Ledger & how does it work?

SPV gives installers onsite confirmation of a solar panel's eligibility. The ledger provides secondary verification when creating STCs for solar panels that don't use SPV. It also enables us to ensure solar panel serial numbers are provided by authorised suppliers and helps identify products from non-authorised suppliers.
