
SAFT Energy Storage Container

What is a SAFT flex battery storage container?

Saft, a subsidiary of TotalEnergies, has extended its energy storage system offering with the launch of its latest innovation: the Intensium Flex(I-Flex) battery storage container. It provides a compact building block rated at 3.4, 4.3 or 5.1 MWh for the creation of projects up to the gigawatt-hour scale.

Does Saft have a battery storage system?

Saft, a subsidiary of TotalEnergies, has extended its energy storage system (ESS) offering with the launch of its latest innovation: the Intensium Flex(I-Flex) battery storage container. It provides a compact building block rated at 3.4, 4.3, or 5.1 MWh for the creation of projects up to the GWh scale.

Where are Saft energy storage containers made?

Our Intensium containers are manufactured at Saft plants in Zhuhai, China and Jacksonville, USA. By the end of March 2025 Saft has deployed or contracted 7,5GWh of storage systems on over 150 projects in more than 25 countries. Saft (Zhuhai) Energy Storage CO.

Where are Saft flex containers made?

Saft will assemble Intensium Flex containers at its manufacturing hubs in China and the US with dual supply chains. *NFPA: National Fire Association standard (US) Saft's new "Intensium" Flex high energy battery!

For more than a decade, Saft has been providing complete storage solutions up to hundreds of MWs that integrate a Saft lithium-ion battery system with power-conversion ...

Saft, has extended its energy storage system (ESS) offering with the launch of its latest innovation: the Intensium® Flex (I-Flex) battery storage container. It provides a compact

...

Intensium® Flex is Saft's flexible and ready-to-install containerized battery building block, enabling optimized energy storage systems (ESS) for any configuration, any operation and any location. Our ...

Saft, a subsidiary of TotalEnergies, has extended its energy storage system offering with the launch of its latest innovation: the Intensium Flex (I-Flex) battery storage container. It provides a compact building ...

Saft design enables up to 300% daily energy throughput May 07 2025, Munich - Saft, a subsidiary of TotalEnergies, has extended its energy storage system (ESS) offering ...

Since Saft installed its first systems in 2012, continuous innovation has resulted in a six-fold increase in the energy storage capacity of its Intensium 20-foot containers from 0.5 ...

Saft, a subsidiary of TotalEnergies, has extended its energy storage system (ESS) offering with the launch of its latest innovation: the Intensium Flex (I-Flex) battery storage ...
