
Sam inverter 20kw

I bought LSZH from Aerosoft and I get a message I need latest SAM libraries. Anybody knows where to download these? Thanx

Hello, I have purchased several x plane 12 scenery's lately that require Sam3 library, but they did not come with the library. Does anybody have a copy of the library or know ...

After downloading the script, VAAH was faced with the lack of the "SAM Library" library and could not find it anywhere. Please help me and give me a link.
