How many MW of new solar & wind power is available in Serbia?

The Ministry of Mining and Energy in Serbia has allocated a combined 645 MW of new solar and wind power capacity in its 2nd renewable energy auction round for market premiums through a contracts for difference (CfD) scheme. This round was oversubscribed with the offered quota of 424.8 MW capacity significantly exceeded.

How much does a wind farm cost in Serbia?

The auction attracted seven applications for wind farm projects and 34 solar projects. The winning bids offered prices as low as EUR 50.9 (USD 53.28) per MWh for solar and EUR 53.5/MWh for wind, which are below current market levels and below those achieved in Serbia's first renewable energy auction in August 2023.

What is the quota of wind power in Serbia?

At the first auctions, the wind quota was 400 MW while the one for photovoltaic projects amounted to 50 MW. There are seven applications in the wind power segment and 33 for solar power. At the first auctions there were nine and seven, respectively. Serbia changed both the price ceiling and the criterion for evaluating the bids.

How much does electricity cost in Serbia?

Serbia changed both the price ceiling and the criterion for evaluating the bids. The maximum acceptable bid for wind farms is EUR 79 per MWh, compared to 105 per MWh last time. The ceiling for electricity from photovoltaic plants is EUR 72 per MWh, while it was EUR 90 per MWh last time.

Serbia has closed its second round of auctions for renewable energy, selecting 424.8 MW of solar and wind power projects for contracts for difference (CfDs), the Serbian ministry of mining and energy said on Friday.

The Ministry of Mining and Energy in Serbia has allocated a combined 645 MW of new solar and wind power capacity in its 2nd renewable energy auction round for market ...

Serbia has allocated 645 MW across 10 wind and solar projects in its second renewables auction, setting average prices at EUR 0.0509 (\$0.0533)/kWh for solar and EUR 0.0535/kWh for wind.

In the second round of auctions for renewable energy market premiums, launched by the Ministry of Mining and Energy in November 2024, investors submitted applications for ...

The Serbian government has announced that the maximum auction price for wind power plants at upcoming market premium auctions will be 79 euros per MWh, while for solar ...

Serbia recently announced the development of several large-scale solar projects, including a

deal for 1 GW of solar across six sites and a 1 GW solar panel factory. In addition, ...

Serbia's first auction ran in 2023, procuring 50 MW of solar and 400 MW of wind power. The lowest solar bid, announced in August 2023, was EUR0.08865/kWh. Serbia has ...
