# Solar Upgrade Panel

Should I upgrade or expand my solar panel system?

Upgrading and expanding your existing solar panel system could be your answer. When it comes to solar energy, maximizing efficiency and optimizing performance are crucial.

Why should I upgrade my solar panels with SolarEdge power optimisers?

Due to the cost of having these faults repaired many customers choose to upgrade their panels with SolarEdge power optimisers at the same time. This has many benefits including better system performance and unsurpassed monitoring of every part of the solar PV system.

Should I buy a solar system or upgrade my electrical panel?

Before you purchase a solar system or evaluate your electrical panel for upgrading, you need to have an idea of your home's typical energy consumption. This means adding up all the power your home uses for lighting, appliances, heating, cooling, and anything else.

How much does it cost to upgrade a solar panel?

The typical range for labor costs to replace and upgrade a solar panel is \$125 - \$3,000, with an average upgrade taking about 8 to 10 hours to complete. Cost data is based on actual project costs as reported by 14,319 HomeAdvisor members. ZIP Code and National Average are not directly related to the cost of upgrading a solar panel.
