Does a battery energy storage system have a problem?

Operational issues hit returns in one in five battery storage projects, report finds A recent report from battery intelligence firm Accure reveals that while most battery energy storage systems (BESS) operate reliably, nearly 19% of projects experience reduced returns due to technical issues and unplanned downtime.

What is the enervis Battery Storage Index?

Enervis Battery Storage Index: Revenues recover in August following July slump The index provides independent assessment of historical and potential revenues for large-scale battery energy storage systems (BESS) in Germany.

How much money has eolian secured for energy storage?

US energy storage businesses secure more than \$1 bn in flurry of deals Eolian, Energy Vault, NineDot and Greenflash have secured more than a billion dollars between them to advance their energy storage plans.

Does Italy have a utility-scale battery storage market?

The utility-scale battery storage market in Italy is drawing huge interest and development activity, writes Solar Media Market Research analyst Josh Cornes. Energy-Storage.news Premium speaks with Michael Kirschner, Managing Director, US, for Habitat Energy, about optimising BESS projects in ERCOT.

Discover the Best Energy Storage Magazines ranked by Quality of Content, Engagement, Social Media Popularity, and Freshness. The list highlights the most influential ...

Energy-Storage.news Premium speaks with John Farrell, Co-Director of The Institute for Local Self-Reliance (ILSR), on rising utility costs and the role energy storage can play.

Find the latest Energy Storage news and insights in the electronics and technology industries. Visit to learn more.

Energy Vault, a gravity-based power storage provider, has begun building on its first commercial-scale project. The 100MWh battery pack is being constructed near a wind ...

Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin America, and Asia Pacific. Discover how energy storage ...

News from the photovoltaic and storage industry: market trends, technological advancements, expert commentary, and more.

A report from energy think tank Ember details how cost reductions in battery storage technology are enabling dispatchable solar power to compete with conventional power ...
