What are UK solar power deep-cycle batteries?

UK Solar power deep-cycle batteries are manufactured to perform to the highest British standards.. completely sealed and maintenance-free, low self-discharge. Tank formed plates. 100% precise quality testing, stable quality and high reliable performance. Unique grid alloy formula and updated manufacturing technique.

What types of EV chargers do Manchester renewables provide?

At Manchester Renewables we provide all types of EV Chargers, supplying and fitting all models from domestic 7.2KW to commercial 3 phase 22KW chargers. The Battery Storage allows you to store the excess energy your system is producing. This means it isn't going back on the grid during the day and is ready to use when required.

Should I use battery storage with a solar PV installation?

This means it isn't going back on the grid during the day and is ready to use when required. We would always recommend Battery Storage with a Solar PV installation. This optimises the installation and the energy it's providing. This can reduce your energy bills, with some customers reducing bills by 80% per month.
