# Solar energy system application in Nicaragua

How much does solar cost in Nicaragua?

Solar obviously changed our bills, average is around \$10 per month instead of \$150. But even better is we don't notice the power outages anymore. I previously worked with the "best rated" Nicaraguan solar company and the workmanship and professionalism was not even close to Nicamisol's.

What type of energy is used in Nicaragua?

As of 2020, Nicaragua had 1619 MW of installed capacity, with fossil fuels comprising 54.84% of the total, followed by biofuels (13.47%), wind (11.50%), hydro (9.72%), geothermal (9.46%), and solar (1.01%). The CNDC maintains up-to-date maps of electrical generation facilities and transmission lines in Nicaragua.

Why should you install a solar system?

Potential buyers see solar installations as an upgrade. It makes your house an overall sound asset that increases in value over time. You won't have to worry about outages. You'll pay less per kW per month. We monitor your system in real time and are able to respond quickly.
