
Solar energy system for residential building in Auckland New Zealand

Why should you buy a solar power system in Auckland?

Perfect for Auckland homeowners who want to stay connected to the grid while enjoying significant savings on energy bills. Ideal for those seeking energy independence and backup power during outages, while still maintaining a grid connection.

How many solar homes are there in Auckland?

Solar uptake in Auckland continues to accelerate, with installations doubling since 2020. The region now features 12,707 solar-powered homes, with a total installed capacity of 60.9 MW. New installations averaging 7.6 kW in size demonstrate the growing shift toward residential solar energy.

Why should you install solar panels in New Zealand?

Solar panels are a clean and renewable source of energy. By harnessing the power of the sun, we can reduce our reliance on fossil fuels and lower our carbon footprint. There are numerous benefits to installing solar panels in New Zealand. One of the main advantages is the potential for significant cost savings on your energy bills.
