
Spanish solar energy storage project

What is energy storage in Spain?

It targets large-scale energy storage projects in Spain. It focuses on technologies like standalone battery energy storage systems (BESS), pumped hydro energy storage (PHES), and thermal energy storage. The program supports hybrid projects, which combine storage with renewable energy, such as solar or wind farms.

What does the European Commission say about energy storage in Spain?

La Moncloa. 17/03/2025. European Commission approves new 700 million aid scheme to boost energy storage in Spain[News]The Ministry of Ecological Transition and Demographic Challenge will promote the large-scale deployment of this technology by co-financing investments of up to 85%.

Will Spain be able to deploy large-scale electricity storage?

The European Commission has approved a new aid scheme that will allow Spain to deploy large-scale electricity storage, both in hybridisation with renewable energy facilities and standalone and thermal.

How will Spain increase its energy storage capacity?

Spain has launched an ambitious EUR700 million (around \$796 million) program to increase its energy storage capacity. This plan will add 2.5 to 3.5 gigawatts (GW) of storage. It includes pumped hydro, thermal energy storage, and battery systems.

Spain is processing 462 energy storage projects totaling 7.6 GW. See the hybrid vs standalone split, regional hotspots, and technical implications for delivery and O& M.

Industrial drive and new storage projects in Spain Spanish and European companies are leading a deployment of energy storage solutions to support the energy transition. Endurance Motive, a Valencian firm ...

This new funding builds on earlier support under Spain's Recovery, Transformation and Resilience Plan (PRTR), which has already mobilized EUR730 million for 4.5 GW of storage ...

Industrial drive and new storage projects in Spain Spanish and European companies are leading a deployment of energy storage solutions to support the energy ...

The La Africana Solar Power Plant - Thermal Energy Storage System is a 50,000kW molten salt thermal storage energy storage project located in Posadas, Spain. The ...

Furthermore, this strategic focus on storage complements other significant government investments, including the EUR210 million allocated to boost Spain solar ...

Spain has chosen the 143 energy storage projects that will receive capex support from an EU-backed scheme, totalling nearly 9GWh of capacity.
