
Stockholm thin film solar modules

Will Midsummer become Europe's largest thin-film solar cell manufacturer?

Midsummer received a \$36 million grant from the EU Innovation Fund for a new 200-MW CIGS thin-film solar cell mega-factory in Sweden. This move boosts Midsummer's ambition to become Europe's largest thin-film solar cell manufacturer.

Where are CIGS thin film solar cells made?

Swedish manufacturer Midsummer has selected a location for its forthcoming 200 MW factory that will produce CIGS thin film solar cells for the European market. The factory, which is being partially funded by a EUR32.3 million grant from the EU Innovation Fund, will be located in the municipality of Flen, southeastern Sweden.

When will a 200MW solar cell plant be built in Sweden?

Image: Midsummer Swedish solar manufacturer Midsummer has selected the municipality of Flen in central Sweden to build a 200MW thin-film solar cell manufacturing facility. The company will take over the premises in September this year, and expects to begin production in 2026, before scaling up to full production capacity in 2028.

Will CIGS build a new solar cell mega-factory in Sweden?

Swedish thin-film solar technology company Midsummer received a grant of about \$36 million (EUR32 million) from the EU Innovation Fund to build a new 200-MW CIGS thin-film solar cell mega-factory in Sweden.

The project is one of three PV manufacturing projects that received financing last year through the European Commission's EU Innovation Fund, along with module ...

Midsummer's solar panels consist of thin-film solar cells of the CIGS type, which makes them thin, light, flexible and discreet. The solar panels are placed on different types of roofing material, e.g. sheet metal, roof tiles or ...

Sweden Thin Film Solar PV Module Market (2024-2030) | Segmentation, Industry, Share, Analysis, Forecast, Competitive Landscape, Size & Revenue, Value, Companies, Trends, ...

Swedish thin film solar manufacturer Midsummer has selected a factory in southeastern Sweden to develop its new solar module production facility, which will produce ...

Midsummer will use the financing to set up production of thin-film copper indium gallium selenide (CIGS) solar cells in native Sweden. Being thin, lightweight and flexible, CIGS solar panels can be installed on ...

Swedish solar manufacturer Midsummer has selected the municipality of Flen in central Sweden to build a 200MW thin-film solar cell facility.

New Thin Film Module Factory Planned in Europe Sweden's Midsummer Bags Over EUR32

Million From European Commission To Expand Manufacturing Capacity With 'Mega-Factory'
The thin-film, flexible solar ...
