
Swiss high-performance solar container battery company

Where is the largest battery storage system in Switzerland?

In Kappel, in the canton of Solothurn, one of the largest battery storage systems in Switzerland is currently under construction, with a total capacity of 65 megawatt-hours. The successful delivery of all system components marks a key milestone on the path to commissioning. Primeo Energie will use our storage system to provide energy flexibility.

Who makes Swiss clean battery?

When building the factory and equipping it with the necessary production facilities, Swiss Clean Battery draws on established and renowned partners. Jonas & Redmann (Berlin), Munters (Hamburg), Dalex (Knowledge) and Metha Bau (Amriswil), for example, are on board.

Does Switzerland's new large-scale battery support the Energy Strategy 2050?

The new large-scale battery for Switzerland in Kappel supports the Energy Strategy 2050 and supports renewable energies.

What is high performance battery technology?

Like the new basic technology from High Performance Battery Technology GmbH. Their solid-state battery based on their groundbreaking electrolyte is the missing component so far: affordable, a 50 percent better environmental balance than conventional lithium-ion batteries and extremely durable.

The company specializes in renewable energy solutions, focusing on the planning, realization, and maintenance of solar systems and energy storage solutions. They provide a turnkey ...

A German battery technology developer with a Swiss stock corporation, engineering next-generation solid-state batteries and supported by more than 300 private investors. To make ...

The new large-scale battery for Switzerland in Kappel supports the Energy Strategy 2050 and supports renewable energies.

You simply add another unit. This makes the solar battery container an ideal choice for businesses that anticipate growth but don't want to over-invest in infrastructure on day one.

High Performance Battery is a funded company based in Teufen (Switzerland), founded in 2018. It operates as a Developer of solid-state battery technology, offering licensing ...

Like the new basic technology from High Performance Battery Technology GmbH. Their solid-state battery based on their groundbreaking electrolyte is the missing component ...

The company has been collecting old car batteries and putting them together in shipping containers and hooking them up to solar panel arrays. The system could potentially ...
