What is a containerised generator?

Our Containerised Generators deliver robust, high-capacity power from 300-3,000 kVA in secure, weather-resistant enclosures. Designed for challenging environments and critical applications, they offer noise reduction, easy transport, and bespoke configuration to meet your site's exact needs.

What is a containerized genset?

Most containerized gensets come equipped with built-in silencers and soundproof insulation, which reduces noise to acceptable levels for urban or commercial use. Containerized gensets are often designed for "plug-and-play" operation, allowing rapid setup and start-up. This is especially useful in emergency or disaster relief situations.

What are FDK containerized gensets?

FDK Containerized Gensets have the following features: Manufacture and design containerized gensets according to ISO container standards. Containers are with CSC/CCS certificate, the complete containerized gen-sets can be directly carried by Cargo ship.
