
Types of Tile solar

What are solar tiles?

Solar tiles are roofing materials that can produce energy directly from sunlight. Solar tiles are integrated into the roof itself and function as both a roofing substance and a source of energy, as opposed to conventional solar panels, which are mounted on top of an existing roof.

What are the different types of solar tiles?

Solecco Solar - Solecco Solar offers tiles in eight different colours, from smooth grey to terracotta and old English dark red. A 4kW system will cost around £12,000. Edilians solar tiles - Edilians make two types of solar tiles, Solar Max and HP 10 Solar.

What are the different types of solar panels?

One type of solar panel, although still somewhat niche, is solar roof tiles, which blend seamlessly with your roof while generating clean electricity. Solar roof tiles are ideal for those who want the benefits of renewable energy without the traditional look of solar panels. Benefits include, but are not limited to:

What types of solar tiles do edilians make?

Edilians solar tiles - Edilians make two types of solar tiles, Solar Max and HP 10 Solar. The Solar Max have an aluminium casing and are larger, fitting two per square metre, while the HP 10 have a clay support and fit five per square metre. Both are available in slate or red colours.

Interested in solar tiles? Our comprehensive buying guide covers everything you need to know, from installation to maintenance and cost savings.

Photovoltaic tiles, also known as solar tiles or solar shingles, are building-integrated photovoltaic (BIPV) systems that function both as roof tiles and solar panels. They are ...
