As a Leading UPS Supplier in Bahrain, Our UPS systems ensure excellent protection for data centers and equipment during power outages, all from leading brands. We offer a wide range of EV Charging Solutions in Bahrain to meet residential and commercial needs - from 7KW single-phase to 11KW, 22KW, and 44KW dual chargers.

How to choose a solar system supplier in Bahrain?

To choose the right solar system suppliers in Bahrain, consider these key factors: quality of solar panels, company experience, warranty coverage (both performance and equipment), proper licenses and insurance, flexible payment options, good reputation, and commitment to long-term services like maintenance and repair.

What are uninterruptible power supplies & ancillary products?

Our uninterruptible power supplies (UPS) and ancillary products cover a wide range of applications and power - from small offices to large data centers and for each and every user. ATC's mission is to provide power protection that ensures the highest availability and the lowest cost of ownership. Precision engineered, High-quality products.

Can a solar battery be integrated with an ups?

Yes, solar batteries can be integrated with UPSs, but it's crucial to verify that your solar system generates the voltage compatible with the UPS specifications. A standard solar charge controller can double as a UPS battery, provided it receives a clean DC voltage within the suitable range.
