

# Western European super farad capacitor production plant

Will Skeleton Technologies & Siemens make supercapacitors in Germany?

Leipzig, Germany - 19th July 2022: Skeleton Technologies and Siemens are announcing a far-reaching technology partnership for the development, planning and implementation of a fully automated, digitalized manufacturing plant to produce supercapacitors in Germany.

Where are AIC Tech capacitors made?

Our mirrored production facilities in Japan & China as well as film plants in various countries spread the risk and result in outstanding delivery capability even in times of shortage. In addition, we operate the world's largest warehouse for AIC tech capacitors in Krefeld.

Where does skeleton manufacture supercapacitors?

Skeleton will invest 220 million EUR in scaling up its production of supercapacitors in Germany. The company has chosen Markranstädt in Leipzig area to establish its second manufacturing site in Saxony, with SOP expected in 2024.

Are supercapacitors a good choice for high-power energy storage?

Siemens already uses our supercapacitors for their high-power energy storage. Skeleton and Siemens both believe that the global economy is undergoing structural changes in some of the largest CO2 emission sources such as power generation, transport, and industry.

Supercapacitors are a key element in drastically reducing emissions in these sectors.

Investment Skeleton plans to invest EUR220M in the facility. Siemens' technology is projected to reduce production costs by complementing Skeleton's proprietary 'curved graphene' material. The ...
